SELECT STREETS
TO BE PAVEDCity Council Holds Busy Session.
Paving Matter Consumes Most of Time.

The city council, in its regular meeting last night, decided to pave the following streets first: Dallas Street from the north line of Mosely to the south line of Burnet, Anderson Street from the west line of Dallas to the east line of Reed, Congress Street from the south line of Anderson to the north line of Fannin, Bryan Street from the north line of Fannin to the south line of Jones, Mosely Street from the west line of

Dallas to the east line of Washington. Several petitions had been circulated against the paving and were sent to the city council meeting last night. It was decided to pave these streets after the petitions had been considered and it was found that they had been signed by a great number of people that the paving will not reach. Several of those who signed the petition have signified their intention of removing their names after they had the matter explained to them. It is thought that the paving matter can now be taken up without further objection from the property owners.

An effort will be made to park Anderson Street where there are property owners who have triangular lots. It is the intention of the council to see if the property owners will not agree to let the city have the narrow

ends of these lots for park purposes. Engineer Adams made this suggestion and said that it would add greatly to the beauty of the thoroughfare.

A. E. Worley appeared before the council for Fire Chief Jenkins, who is sick and was not able to be present, and asked that the city council buy 600 feet of hose for the department. Mr. Worley pointed out that the fire companies have only 1,900 feet of hose and that this is not a sufficient amount to properly take care of it, as it is necessary to put it back on the cart wet after they have been to a fire and that it being folded up wet would cause it to rot and that it would be a good investment for the city to buy a sufficient amount of hose to properly take care of it and to still give the city ample fire protection.

The council ordered 250 feet from the Eureka Fire Hose Manufacturing Company at \$1.10 per foot. It was decided to send a committee to Houston to confer with the I. & G. N. officials in regard to the improvement of Bryan Street, as the county officials are desirous of having this street improved as it joins some of the county good roads. The railroad has an agreement with the city to improve that street and the council expects no trouble in having them live up to their agreement. John C. Vick and Engineer A. S. Adams were appointed to confer and lay the matter before the railroad officials at Houston.

A communication was read from the Bryan Power company asking that the city set aside their agreement with that company to the effect that they would have to offer the city their property first before they could sell to any one else. This matter was referred to the proper committee, along with another communication from the same company asking the city for terms to extend their lines to Hill Crest.

Engineer Adams said that the sewerage system of Bryan was in a serious condition owing to the fact that Bryan was situated on the top of a hill and that when the system was installed no allowance was made for that condition and that if Bryan were to grow into a city it would be necessary to install at least four pumping stations to pump the sewerage out of the pipes.

The council then adjourned.

GOD'S SOVEREIGNTY
MAN'S FREE AGENCY

Hard to Draw Line as to Where God's Sovereignty Ends and Man's Free Agency Begins.

The text of the evening was Matt. 11:25. The preacher said: I don't know where God's sovereignty ends and where man's free moral agency begins. I do know that a man must repent or he'll be lost. God will attend to the great questions. He has not revealed all things to us. "Let not your heart be troubled." Great promises are there in the 11th chapter of John. We don't know much about the mysteries of this realm but we enjoy them and put them to use. Many of the theories of the geologist about the age of the world are being constantly exploded. The Old Testament stands as God's revelation to man. And we can use its gracious truths.

Without faith we can't please each other, neither can we please God without exercising faith in Him. God wants us to trust Him and believe in Him, leaving the mysteries and the unknown to Him to take care of.

A strong appeal was made for men to turn from their sinful lives and put their case entirely in the hands of the Saviour.

This Morning's Service.

It was noted that the congregation was a specially good one for a holiday. In his introductory remarks Dr. Smith said that the men and women who are doing their part in this world's work are those who believe in God.

After reading a part of the 5th chapter of Galatians, he spoke on the works of the flesh and the fruits of the spirit. An ideal for life is not the only thing men need nor is that all that we find Jesus to be. We need a help and He is a help in getting away from our sins and in purging us from them. There is no social redemption of the right sort apart from the redemption through the Lord Jesus Christ. "There is none other name under Heaven given among men whereby we must be saved."

The fruits of the spirit are active; they are positive good.

We don't want to live simply a negative life. We need to live a positive life. The man who simply abstains from wrong is just like a lobster. The lobster doesn't swear or steal or get drunk. We need to be active and put some personality and enthusiasm into our Christian duties.

People need to cultivate repose. They are better Christians for it. It is a time of storm and turmoil but the man who loves God is going to do his duty through it all. The law of a happy life is bearing other people's burdens. Jesus Christ came into the world not to be ministered unto but to minister. No president of the United States has the opportunity to pour out his heart of unselfishness and love to the people that the minister of the gospel has. Let us line up people for God. A. T. C.

WAGON YARD PERSONALS.

Arrivals at the city wagon yard for the last few days are as follows: E. D. McClain, Zulch; J. H. Nealy, Zulch; G. R. Maddox, Zulch; C. Ayers, Zack; Mr. De Hart, Zack; J. H. Drink
Habit

RELIABLE HOME TREATMENT.

The ORRINE treatment for the Drink Habit can be used with absolute confidence. It destroys all desire for whiskey, beer or other alcoholic stimulants. Thousands have successfully used it and have been restored to lives of sobriety and usefulness. Can be given secretly. Costs only \$1.00 per box. If you fail to get results from ORRINE after a trial, your money will be refunded. Ask for free booklet telling all about ORRINE. E. J. Jenkins.

CALOMEL DYNAMITES.

Crashes into Sour Bills, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.
